

The image shows a screenshot of a Java IDE. The top toolbar includes icons for Run, Debug, Stop, Share, Save, and Beautify, along with a Language dropdown set to Java. The editor window, titled 'Main.java', contains the following code:

```
1 public class Main{
2
3     public static void main(String[] args){
4
5         int year= 2024;
6
7         if(year % 4 == 0){
8             System.out.println(year + " year is a leap year");
9         }
10        else if( year % 100 == 0){
11            System.out.println( year + "year is not a leap year");
12        }
13    }
14 }
```

The output console on the right, titled 'Input', displays the program's execution results:

```
2024 year is a leap year
...Program finished with exit code 0
Press ENTER to exit console.
```

The screenshot shows an IDE with a Java file named 'Main.java' and a console window. The code in 'Main.java' is as follows:

```
1 public class Main{
2
3     public static void main(String[] args){
4
5         int year = 1900;
6
7
8         if(year % 400 == 0){
9             System.out.println(year + " year is a leap year");
10        }
11        else if( year % 100 == 0){
12            System.out.println( year + "year is not a leap year");
13        }
14        else if( year % 4 == 0){
15            System.out.println( year + "year is a leap year");
16        }
17    }
18 }
```

The console window shows the output of the program:

```
1900year is not a leap year
...Program finished with exit code 0
Press ENTER to exit console.
```

2024year is a leap year
...Program finished with exit code 0
Press ENTER to exit console.

The image shows a screenshot of an IDE with a Java program and its console output. The IDE has a top toolbar with icons for Run, Debug, Stop, Share, Save, Beautify, and other functions. The language is set to Java. The code is in a file named 'Main.java'.

```
1- public class Main{
2-
3-     public static void main(String[] args){
4-         int marks = 85;
5-
6-         if(marks >= 90){
7-             System.out.println("average marks " + marks + "GRADE A");
8-         }
9-         else if(marks < 90 && marks >= 70){
10-             System.out.println("average marks " + marks + "GRADE B");
11-         }
12-         else if(marks < 70 && marks >= 50){
13-             System.out.println("average marks " + marks + "GRADE C");
14-         }
15-         else if(marks < 50 && marks >= 30){
16-             System.out.println("average marks " + marks + "GRADE D");
17-         }
18-         else if(marks < 30){
19-             System.out.println("fail");
20-         }
21-     }
22- }
```

The console output shows the result of the program execution:

```
average marks 85GRADE B
...Program finished with exit code 0
Press ENTER to exit console.
```

The image shows a screenshot of an IDE with a dark theme. The top toolbar includes icons for Run, Debug, Stop, Share, Save, and Beautify, along with a Language dropdown set to Java. The editor window on the left displays a Java file named 'Main.java' with the following code:

```
1 public class Main{
2
3     public static void main(String[] args){
4
5         int day =3;
6         switch (day) {
7
8             case 1:
9                 System.out.println("Monday");
10                break;
11
12             case 2:
13                 System.out.println("tuesday");
14                break;
15
16             case 3:
17                 System.out.println("wednesday");
18                break;
19
20             case 4:
21                 System.out.println("thursday");
22                break;
23
24             case 5:
25                 System.out.println("friday");
26                break;
27
28             case 6:
29                 System.out.println("saturday");
30                break;
31
32             case 7:
33                 System.out.println("sunday");
34                break;
35        }
36    }
37 }
38 }
```

The output window on the right, titled 'input', shows the program's execution results:

```
wednesday
...Program finished with exit code 0
Press ENTER to exit console.
```
